1. The Amendment filed on 07/09/2007 has been entered. Claims 1-15, 17 and 19-20 are pending in this Office action.

2. Claims 17 and 19-20 have been renumbered as claims 16-18, respectively.

Response to Arguments

3. Applicant's arguments, see Applicants' Remarks, filed on 07/09/2007, with respect to claims 1-10, 13 and 15-20 have been fully considered and are persuasive. The rejection of claims 1-10, 13 and 15-20 has been withdrawn.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

4. Regarding claim 1, claim is allowable over prior art of record because the cited references taken individually or in combination cannot teach or suggest a phase error correction circuit for correcting a phase error in an input signal having a frame structure containing a preamble, unique word, and data, said phase error correction circuit comprising a combination of uniquely distinct elements as set forth in the application claim.

5. Regarding claim 17, claim is allowable over prior art of record because the cited references taken individually or in combination cannot teach or suggest a receiver

for receiving a digitally-modulated signal including a phase error correction circuit comprising a combination of uniquely distinct elements as set forth in the application claim.

6. Regarding claim 19, claim is allowable over prior art of record because the cited references taken individually or in combination cannot teach or suggest a receiver for receiving a digitally-modulated signal including a phase error correction circuit comprising a combination of uniquely distinct elements as set forth in the application claim.

7. Regarding claim 20, claim is allowable over prior art of record because the cited references taken individually or in combination cannot teach or suggest a signal transmission method comprising the uniquely distinct step "generating a frame-structured data by adding, in front of each data to be transmitted which is split into units of a predetermined length, a preamble which alternates from symbol to symbol, and a specific pattern selected so as not to allow a predetermined length of symbol-to-symbol alternations to occur even in the presence of a symbol error".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
